

GROUP ENVIRONMENTAL POLICY STATEMENT

This Environmental Statement is approved by the Board of Directors of eFaraday Group Limited, hereon named eFaraday Group.

eFaraday Group and the Board of Directors recognise the significant impacts that its operations, activities and resultant waste have on the environment. It maintains a commitment to minimise the adverse effects of those impacts through the implementation and continual improvement of an environmental management system.

The Company's environmental management system will ensure compliance with environmental legislation and other requirements and compliance obligations, and the prevention of pollution through appropriate risk control consistent with maintaining an exceptional service to its customers.

In order to meet the objectives of this policy the company have implemented a formal and documented Environmental Management System that will meet the applicable environmental requirements of BS EN ISO 14001: 2015 and the overall requirements of the EMS accreditation body sector scheme.

eFaraday Group is therefore committed to the following key policy principles:

Significant environmental aspects have been identified by carrying out an initial environmental review and the Group Directors in conjunction with the Group HSQE Manager individual process owners have agreed appropriate objectives and targets that relate to the significant aspects that the company can control or influence.

- Progress against agreed objectives and targets shall then be presented for review at the management review meeting and any defined changes to the objectives and targets agreed.
- Minimising waste.
- Maximising efficient use of natural resources and preventing pollution.
- Regular checks and reviews are carried out to ensure the environmental management system remains effective.
- We aim to continuously improve our environmental performance through the support and involvement of all employees and any other interested parties.
- Integrating the consideration of environmental concerns and impacts into all of our decision making and activities.
- Recognising that the minimum acceptable level of environmental performance is that set out in current environmental legislation.
- Setting clear environmental objectives and regularly monitoring progress against them.
- We aim to continuously improve our environmental performance through the support and involvement of all employees and any other interested parties.

Whilst ensuring that the Company's Environmental Policy and commitments to all staff, suppliers, customers and other interested parties are fully communicated.
